ADDENDUM #3

IFB 17-03 MILLING, OVERLAY AND TRAFFIC MARKING – AS NEEDED

*******ATTENTION BIDDERS*******

(To be completed and returned with bid response)

1. Q: Does the project have an asphalt liquid index escalator?
A: No
2. Q: The CTA unit item has to include the removal as well? Please clarify.
A: Yes – see Revised Bid Form 2 and Scope
3. Q: For the Milling item can you specified the actual depth? The scope of work on page 2 calls for two depths. Please clarify which depth we have to use since the unit price doesn't specified the depth.
A: See Revised Bid Form 2 and Scope
4. Q: Is the milling item for night work above and beyond the 60,000 SY shown on the regular milling item?
A: No
5. Q: For the asphalt base course item do we have to include the removal as-well? Please clarify.
A: Includes removal. See Revised Bid Form 2 and Scope
6. Q: Is third party testing responsibility of the Owner or Contractor?
A: Contractor
7. Q: Is the SM-9.5D item for night work above and beyond the 2,500 tons shown on the regular SM-9.5D item?
A: No
8. Q: Under the bid items for the referenced contract Base Asphalt (BM-25 Base Mix) is to be bid by LF (4000). Is this the correct unit? We have had no experience bidding this item by this unit. No width or depth is specified. Please clarify.
A: The Unit should be Per Ton. See Revised Bid Form 2.
9. Q: Page 2 of the proposal book indicates that the night work on both milling and paving should be the Price differential only. I just want verification that if our SM-9.5D Day work price was for example \$88.00 Per ton and the night work was \$90.00 per ton then the 1,000 ton bid item would be \$2.00 per ton.
A: Yes. See Revised Scope of Work.

ATTACHMENTS - Revised Page 2 under Scope. Additions are *italicized*
Revised Bid Form 2 – this Bid Form shall replace any previously issued Bid Forms

ALL OTHER TERMS, CONDITIONS, AND SPECIFICATIONS SHALL REMAIN THE SAME.
