Addendum #3

Date: January 4, 2018

Learning Management System - <u>RFP1217LMSCUR</u>

The Request for Proposals (RFP) for the above named project is amended as noted in this Addendum. This Addendum consists of questions and Rockwood School District's responses.

<u>Question 1:</u> Can you elaborate on the proposal requirement to "Describe the ability of your system to distribute, collect and analyze post learning evaluative information"? What is the type of post learning evaluative information you desire?
<u>Response:</u> The District is interested in ascertaining the ability of your system to collect and disaggregate data with respect to evaluating recent isolated professional learning events (for both online and face to face learning).

<u>Question 2:</u> Can you elaborate on the proposal requirement to "Describe the ability of your system to monitor implementation of professional learning efforts"? Is it meant to track the teacher's application of the learning, or the implementation of the delivery of course?
<u>Response:</u> The District is interested in ascertaining the ability of your system to administer, collect and analyze data immediately and in the months after a Professional Learning event, with respect to the implementation of new learning in the classroom and its impact on student achievement, specifically the ability to see the progress and improvement over time.
