

CR 278 (Peacock Bridge Road)
Bid Number 1819 Eng 3
FPID # 438355-1-54-01
ADDENDUM 1

Whenever there is a conflict between this addendum and the initial proposal or plans, the addendum shall take precedence.

Attached are questions that have been received, along with the answers:

1. For the safety of the general public and the construction crews can this road be shut down for any period of time?

Answer: [With an approved detour route and provided that the contractor will provide \(1\) a message board with one week advanced notification, \(2\) all signage and advance signage needed for the approved detour, the road can be closed for up to three weeks for the full depth reclamation and installation of asphalt.](#)

2. There is a pay item "Limerock base for widening", but in the plans you call for widening to be performed with full depth reclamation. What is your intent for the widening process?

Answer: [The widening area is to be cut out and the limerock placed in the trench. Then the FDR will be performed including the area of widening.](#)

Bidder must acknowledge receipt of all addenda as indicated on the bid form. Failure to acknowledge receipt of addenda may invalidate the bid. Both the bid form and the Pricing Sheets must be submitted with the bid.
